# CERTIFIED COPY OF SELECTED RECORDS

Prepared for: Product demonstration only

Record keeper: Jordan Ellis - fictional example

Period covered: Oct 19, 2026 at 03:10 PM PDT (-0700) through Oct 19, 2026 at 03:10 PM PDT (-0700)

1 entries | 1 photos | Newest first

Generated: Oct 30, 2026 at 06:34 PM PDT (-0700)

Display time zone: America/Los_Angeles. Older timestamps without a saved zone retain their recorded local clock time.

## Export certification

This export contains the 1 selected entries from the record maintained in Evidence Locker, covering Oct 19, 2026 at 03:10 PM PDT (-0700) through Oct 19, 2026 at 03:10 PM PDT (-0700). Event, original creation and available last-edit dates are reproduced from the saved record. This certifies the scope of the export, not the truth of entries or acceptance by a court.

A separate .sha256 download contains the checksum of the finished PDF. Compare it with a SHA-256 hash of this file to check that it matches that copy. This does not establish that entries were never edited.

## RECORDED SUMMARY

1 selected records. Categories describe what the record keeper documented; they are not independently verified findings.

Missed obligations: not explicitly recorded. Missing records are not proof an event did not occur.

Summary figures describe only the selected entries. Routine exchanges and legal entries are not automatically classified as incidents.

## HOW TO READ THIS PACKET

Entries appear newest first. The entry index starts on page 2. Each entry shows event and logged times, recorded details and attachments. GPS and capture metadata appear only when recorded and enabled.

Evidence Locker is a personal documentation tool, not legal advice. This user-maintained report is not a court filing or affidavit and does not independently verify events. Review its completeness before use. Original files remain separate; PDF images are display copies.

# ENTRY INDEX

Event date / time | Entry title | Category ..... Page

Oct 19, 2026 at 03:10 PM PDT (-0700) | Damage noticed on the garden fence | incident . . . . . 3

# TIMELINE – NEWEST FIRST

## 1. Damage noticed on the garden fence

Event: Oct 19, 2026 at 03:10 PM PDT (-0700)
Logged: Oct 19, 2026 at 03:10 PM PDT (-0700)

Category: incident

FICTIONAL DEMONSTRATION. I noticed a split near the bottom of one fence board and a loose adjacent board. I photographed the area before arranging a repair. I did not see how the damage happened. The attached photo was created solely for this product demonstration.

## Exhibit index and original-file hashes

Exhibit numbers apply to this report only. SHA-256 values were computed from the original attachment bytes in this snapshot, before PDF display transformations. A matching hash verifies matching bytes, not the truth, authorship, or capture time of the contents.

## Exhibit 1 — fictional-fence.jpg

Entry: Damage noticed on the garden fence
Entry ID: fence
Attachment ID: fence-image
